Greetings Home Winemakers!

Brehm Vineyards has built its reputation by providing the very best wine grapes available.

We source our grapes from California's North Coast to the Columbia River Gorge in Washington State. These regions produce some of the highest quality grapes in the world. We have great relationships with our vineyard owners. This has allowed us to have control over the growth of the grapes from Spring to Fall giving us freedom to harvest the grapes at their greatest potential.

When Peter Brehm first began marketing Frozen Grapes in 1974, it was his belief that frozen was just as good as fresh. Since then frozen grapes have allowed us to provide the best quality grapes made available to the home winemaker. Brehm introduced frozen grapes into Vancouver, B.C. in 1980. Our grapes have won best of shows at British Columbia and Ontario wine competitions.

You can rely on the best quality of each vintage with Brehm Vineyards.

Cheers!
